ALLGEMEINE WARNHINWEISE
Um dauerhafte Flecken zu vermeiden, sollten Artikel mit helleren Farben nicht mit Textilien und Kleidung mit unfixierten Farbstoffen in Berührung kommen. Wir können keine Garantie für die Entfernbarkeit unbekannter Farbstoffe aus hellen Produkten geben.

GENERAL WARNINGS
To avoid permanent stains, the lighter colours of the article should not be brought into contact with textiles and clothing unfixed dyes. We cannot guarantee the ability to remove unknown dyes from light coloured product.

Die beschichteten Stoffe (Öko-Leder) können gemäß der Verordnung des italienischen Gesundheitsministeriums mit Lösungen aus Wasser und 70%igem Äthylalkohol sowie handelsüblichen, gebrauchsfertigen Desinfektionsmitteln oberflächlich desinfiziert werden. Wir empfehlen, das Produkt an einer kleinen versteckten Ecke der zu reinigenden Fläche zu testen.
Beachten Sie spezielle antimikrobielle, antibakterielle und antimykotische Behandlungen, die seit jeher einige unserer Beschichtungen auszeichnen, um eine wirksame Abwehrbarriere gegen Bakterien, Milben und Pilze zu schaffen, kombiniert mit außergewöhnlichen Eigenschaften der Praktikabilität und Haltbarkeit.

The coated fabrics (eco-leathers) can be superficially sanitized as per the Decree of the Italian Ministry of Health with solutions of water and 70% ethyl alcohol and commercial disinfectant products ready for use. We suggest to test the product on a small hidden corner of the surface you need to clean.
We focus your attention on special antimicrobial, antibacterial and antifungal treatments, which have always distinguished some of our coatings to create a valid defensive barrier against bacteria, mites and fungi, combined with exceptional features of practicality and durability.
